***Deepwater Horizon* Oil Spill Natural Resource Damage Assessment, Florida Trustee Implementation Group Phase V.3 Florida Coastal Access Project: Draft Restoration Plan and Supplemental Environmental Assessment**

AGENCY: Department of the Interior.

ACTION: Notice of availability; request for public comments.

SUMMARY: In accordance with the Oil Pollution Act of 1990 (OPA), the National Environmental Policy Act of 1969 (NEPA), the *Deepwater Horizon* Oil Spill Final Programmatic Damage Assessment Restoration Plan and Final Programmatic Environmental Impact Statement (Final PDARP/PEIS), Record of Decision, and Consent Decree, the Federal and State natural resource trustee agencies for the Florida Trustee Implementation Group (FL TIG) have prepared a *Phase V.3 Florida Coastal Access Project: Draft Restoration Plan and Supplemental Environmental Assessment* (Phase V.3 RP/SEA). The FL TIG is proposing a third phase of the Florida Coastal Access Project, including the acquisition of a coastal inholding parcel within the Navarre Beach Marine

Park in Santa Rosa County, Florida, as the preferred alternative. This would continue the process of restoring lost recreational use in the Florida Restoration Area resulting from the *Deepwater Horizon* (DWH) oil spill. We invite comments on the draft Phase V.3 RP/SEA.

DATES: *Submitting Comments:* We will consider public comments on the draft Phase V.3 RP/SEA received on or before **[INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE *FEDERAL REGISTER*]**.

Public Meeting: The FL TIG will host a public meeting on July 18, 2019, at the Navarre Beach Marine Science Station, 8638 Blue Heron Court, Navarre, FL. An open house will begin at 5:30 p.m., followed by the public meeting from 6 to 7:30 p.m.

ADDRESSES: *Obtaining Documents:* You may download the draft Phase V.3 RP/SEA from any of the following websites:

- <http://www.doi.gov/deepwaterhorizon/adminrecord>
- <http://www.gulfspillrestoration.noaa.gov/restoration-areas/florida>
- <http://dep.state.fl.us/deepwaterhorizon/default.htm>

Alternatively, you may request a CD of the draft Phase V.3 RP/SEA (see **FOR FURTHER INFORMATION CONTACT**). A copy of the Phase V.3 RP/SEA is also available for review at the Santa Rosa County Public Library.

Submitting Comments: You may submit comments on the draft Phase V.3 RP/SEA by one of the following methods:

- *Via the Web:* <http://www.gulfspillrestoration.noaa.gov/restoration-areas/florida>

- *Via U.S. Mail:* U.S. Fish and Wildlife Service, P.O. Box 29649, Atlanta, GA 30345. In order to be considered, mailed comments must be postmarked on or before the comment deadline given in **DATES**.
- *In Person:* Verbal comments may be provided at the public meeting in Navarre, Florida, on July 18, 2019.

FOR FURTHER INFORMATION CONTACT: Nanciann Regalado, via email at nanciann_regalado@fws.gov, via telephone at 678–296–6805, or via the Federal Relay Service at 800–877–8339.

SUPPLEMENTARY INFORMATION:

Introduction

The Florida Coastal Access Project was selected for funding and implementation in Phase V of DWH early restoration. In the 2011 *Framework Agreement for Early Restoration Addressing Injuries Resulting from the Deepwater Horizon Oil Spill* (Framework Agreement), BP agreed to provide to the Trustees up to \$1 billion toward early restoration projects in the Gulf of Mexico to address injuries to natural resources caused by the DWH oil spill. The Framework Agreement represented a preliminary step toward the restoration of injured natural resources and was intended to expedite the start of restoration in the Gulf in advance of the completion of the injury assessment process. In the five phases of the early restoration process, the Trustees selected, and BP agreed to fund, a total of 65 early restoration projects expected to cost a total of approximately \$877 million, including the Florida Coastal Access Project for approximately \$45.4

million. The Trustees selected these projects after public notice, public meetings, and consideration of public comments.

The Consent Decree, as discussed in the “Background” section below, terminated and replaced the Framework Agreement and provided that the Trustees shall use remaining early restoration funds as specified in the early restoration plans and in accordance with the Consent Decree. The Trustees have determined that decisions concerning any unexpended early restoration funds are to be made by the appropriate TIG, in this case the FL TIG.

Background

On April 20, 2010, the mobile offshore drilling unit *Deepwater Horizon*, which was being used to drill a well for BP Exploration and Production, Inc. (BP), in the Macondo prospect (Mississippi Canyon 252–MC252), experienced a significant explosion, fire, and subsequent sinking in the Gulf of Mexico, resulting in an unprecedented volume of oil and other discharges from the rig and from the wellhead on the seabed. The *Deepwater Horizon* oil spill is the largest oil spill in U.S. history, discharging millions of barrels of oil over a period of 87 days. In addition, well over 1 million gallons of dispersants were applied to the waters of the spill area in an attempt to disperse the spilled oil. An undetermined amount of natural gas was also released into the environment as a result of the spill.

The Trustees conducted the natural resource damage assessment (NRDA) for the *Deepwater Horizon* oil spill under the Oil Pollution Act 1990 (OPA; 33 U.S.C. 2701 *et seq.*). Pursuant to OPA, Federal and State agencies act as trustees on behalf

of the public to assess natural resource injuries and losses and to determine the actions required to compensate the public for those injuries and losses. The OPA further instructs the designated trustees to develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent of the injured natural resources under their trusteeship, including the loss of use and services from those resources from the time of injury until the completion of restoration to baseline (the resource quality and conditions that would exist if the spill had not occurred).

The *Deepwater Horizon* trustees are:

- U.S. Department of the Interior (DOI), as represented by the National Park Service, U.S. Fish and Wildlife Service, and Bureau of Land Management;
- National Oceanic and Atmospheric Administration (NOAA), on behalf of the U.S. Department of Commerce;
- U.S. Department of Agriculture (USDA);
- U.S. Environmental Protection Agency (EPA);
- State of Louisiana Coastal Protection and Restoration Authority, Oil Spill Coordinator's Office, Department of Environmental Quality, Department of Wildlife and Fisheries, and Department of Natural Resources;
- State of Mississippi Department of Environmental Quality;
- State of Alabama Department of Conservation and Natural Resources and Geological Survey of Alabama;
- State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; and

- State of Texas: Texas Parks and Wildlife Department, Texas General Land Office, and Texas Commission on Environmental Quality.

The Trustees reached and finalized a settlement of their natural resource damage claims with BP in an April 4, 2016, Consent Decree approved by the U.S. District Court for the Eastern District of Louisiana. Pursuant to that Consent Decree, restoration projects in the Florida Restoration Area are now chosen and managed by the FL TIG. The FL TIG is composed of the following six Trustees: State of Florida Department of Environmental Protection and Fish and Wildlife Conservation Commission; DOI; NOAA; EPA; and USDA.

Overview of the FL TIG Draft Phase V.3 RP/SEA

The draft Phase V.3 RP/SEA is being released in accordance with OPA NRDA regulations found in the Code of Federal Regulations (CFR) at 15 CFR part 990, NEPA and its implementing regulations found at 40 CFR parts 1500–1508, the Final PDARP/PEIS, and the Consent Decree. The Phase V.3 RP/SEA provides an OPA analysis for the proposed third phase of the Florida Coastal Access Project and supplements the NEPA analysis completed in the first and second phases of the project (2016 Final Phase V Early Restoration Plan and Environmental Assessment and the 2017 Final Phase V.2 Restoration Plan and Supplemental Environmental Assessment, respectively). In the draft Phase V.3 RP/SEA, the FL TIG proposes the acquisition of the Navarre Beach Park Addition—an approximately 4.75-acre privately owned inholding parcel within the existing Navarre Beach Marine Park, a county park in Santa Rosa County—as the preferred alternative. The proposal consists of land acquisition only;

construction of recreational amenities is not proposed. The parcel would become part of the Navarre Beach Marine Park and would be owned by Santa Rosa County, who would be responsible for maintaining it as part of the Santa Rosa County Park System. Deed restrictions would ensure the property remains in the Santa Rosa County Park System in perpetuity. Acquisition of the Navarre Beach Marine Park Addition would continue the process of restoring natural resources and services injured or lost as a result of the DWH oil spill. This would be accomplished using approximately \$2 million in Florida Coastal Access Project remaining funds.

Next Steps

As described above, the Trustees will hold a public meeting to facilitate the public review and comment process. After the public comment period ends, the Trustees will consider and address the comments received before issuing a final Phase V.3 RP/SEA.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Administrative Record

The documents comprising the Administrative Record for the Phase V.3 RP/SEA can be viewed electronically at <https://www.doi.gov/deepwaterhorizon/adminrecord>.

Authority

The authority of this action is the Oil Pollution Act of 1990 (33 U.S.C. 2701 *et seq.*), its implementing Natural Resource Damage Assessment regulations found at 15 CFR part 990, and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*) and its implementing regulations found at 40 CFR parts 1500–1508.

Mary Josie Blanchard,

Director of Gulf of Mexico Restoration, Department of the Interior.
